EURASTIP CAPACITY BUILDING FORESIGHT WORKSHOP: Enhancing Opportunities for Mobility in Aquaculture Education between South-East Asia and Europe

DATE: 18 November 2019

LOCATION: Seri Pacific Hotel, Kuala Lumpur, Malaysia

Are you interested in enhancing mobility opportunities in the aquaculture sector between Europe and South-East Asia? Please join us at this exciting workshop!

Aquaculture is one of the most important and rapidly expanding food production industries in the world. Excellent education underpins each person working in aquaculture and **mobility** opportunities as part of education programmes allow people to develop their professional, social and intercultural skills and to increase their employability. It is these so-called transferable skills that employers look for when recruiting new talent.

Most of Europe's imported seafood comes from South-East Asia, and both regions have a substantial interest in collaborating at an educational level too. Increased **mobility** opportunities between these two regions will strengthen international relationships, provide well-rounded employees for the growing aquaculture sector and increase new business cooperation.

How to enhance **mobility** opportunities in the aquaculture sector between these two regions is the topic that will be discussed at the **3rd EURASTIP Capacity Building Foresight Workshop**, which is hosted jointly alongside the International Fisheries Symposium 2019 that will take place in Kuala Lumpur (Malaysia) this November.

Do you have experience with **mobility** in the aquaculture sector, ideally between Europe and South-East Asia, and would you like to share your insights to help the sector improve? Please join us! Your **mobility** experience can be as part of education programmes (both students and educators), but also industry exchanges, research exchanges, etc. We love to hear about your challenges, opportunities and best practice examples!

©Melody Braun

Workshop Conditions:

- Participants should be from either Europe or South-East Asia, including Bangladesh, and first allocation of places will be given to applicants affiliated with organisations who have been or who are a member of Aqua-tnet, the European Aquaculture Technology and Innovation Platform (EATiP), the European Mirror Platforms (MiPs) or ASEAN-FEN
- Funding for travel and subsistence costs will be available for selected participants (conditions apply)
- The workshop will be conducted in English and participants are expected to actively contribute
- There are no costs associated with participating in the workshop – it is free of charge

**DEADLINE FOR
REGISTRATION
26 AUGUST 2019**

Registration:

Please register by sending an email to Jane Maher, AquaTT Project Officer: jane@aquatt.ie, indicating the following:

- Full name details;
- Affiliated organisation;
- Country;
- Indicate if you are or have been a member of Aqua-tnet, EATiP, MiPs or ASEAN-FEN, or any other aquaculture education platform and give details;
- To which stakeholder group you consider yourself to belong to: student, educator, research, industry, other (please specify);
- Motivation: please give a half A4 page outline on how do you think you can contribute to the topic? What is your experience with mobility in the aquaculture sector between Europe and South-East Asia?

Please attach the completed *EURASTiP Workshop_ Data Processing Consent Form* to your registration email. Failing to do so will result in us not being able to take your registration into consideration.

For further information on the EURASTiP project, please check the project website: www.eurastip.eu
